2. This PDF has the correct color swatch and layers, so it will be easy to start. There are 3 layers as shown below.

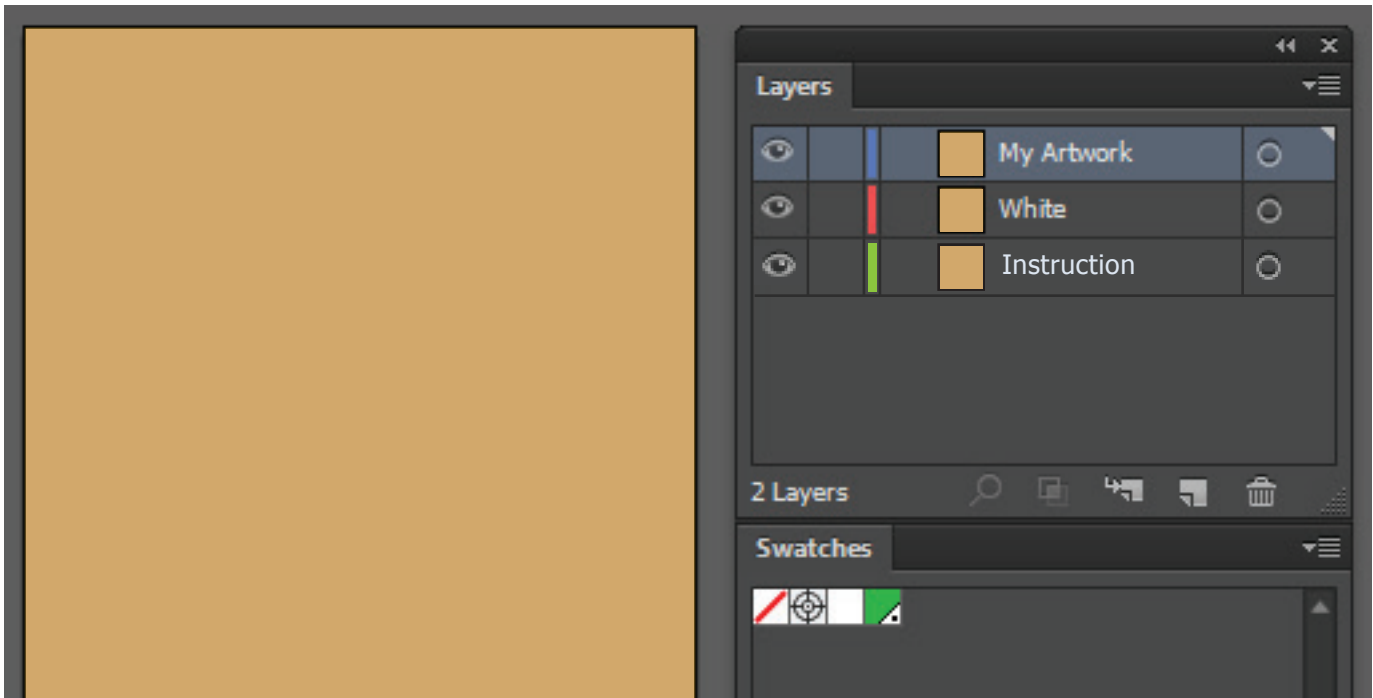

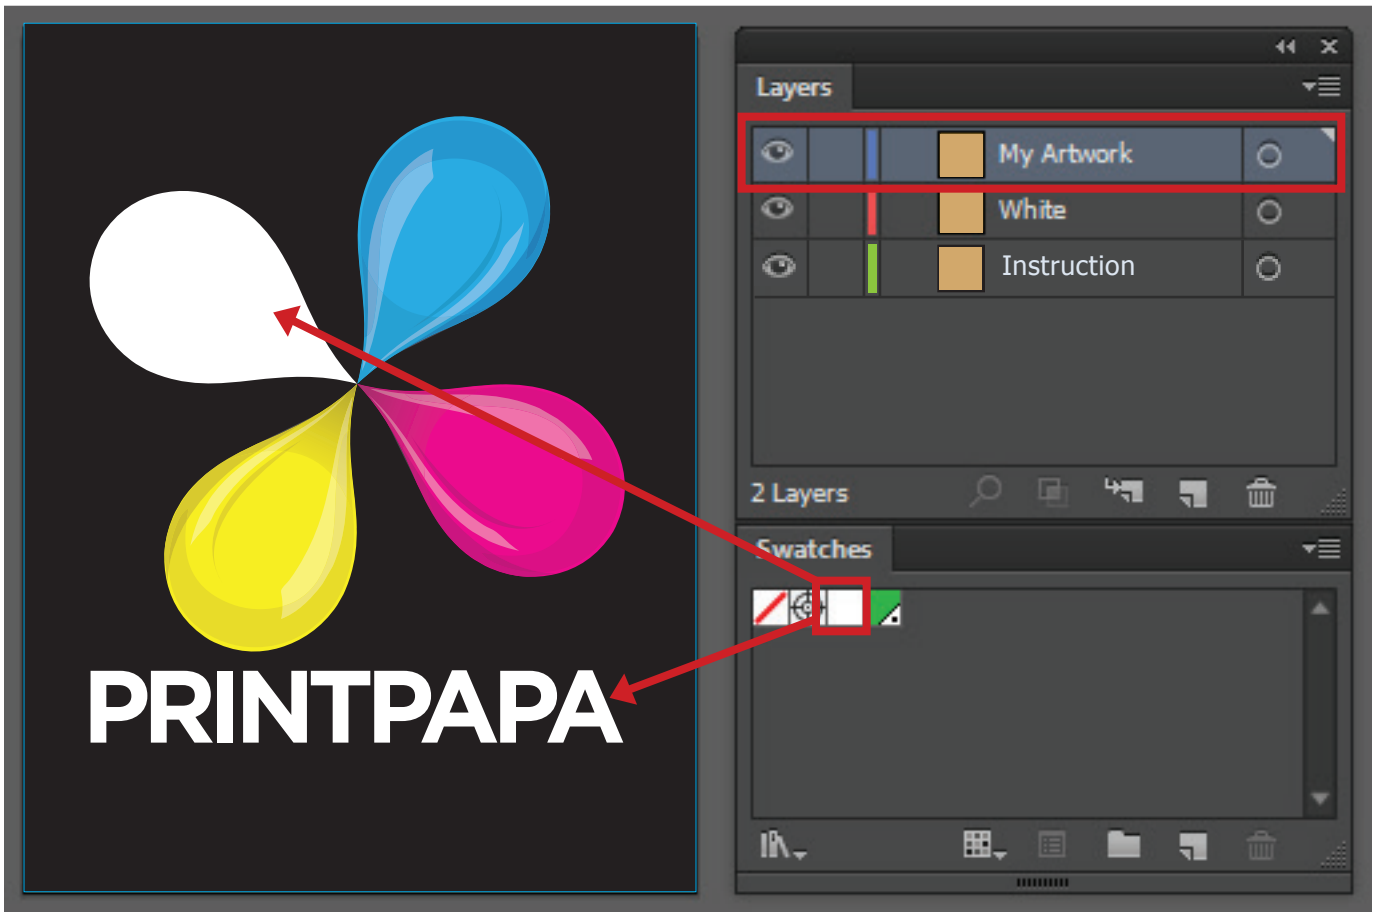

Resize the artboard according to the artwork size you have ordered

3. From the layer window, select "**My Artwork**" layer and create your artwork.
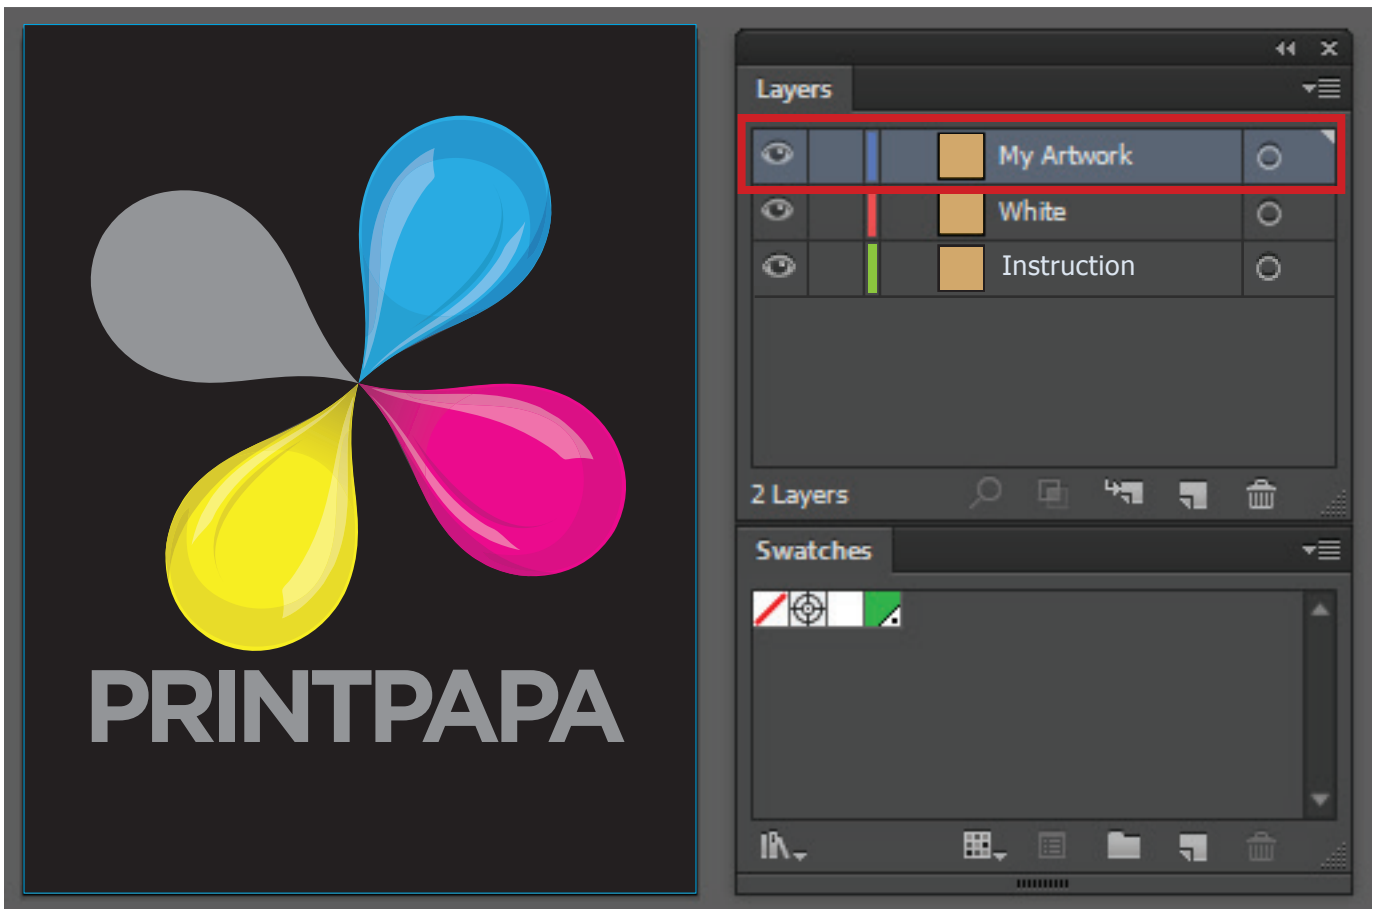

4. To make a object or text of your artwork to be the color of the paper, fill the object or text with regular "**White**" color from the Swatch.

5. If your artwork has HEAVY COVERAGE and light colors, add the **WHITE underbase** in **WHITE layer** using **WHITE swatch** color to popout the artwork.

Example 1: Without white underbase

Example 2: With white underbase

6. Once you finish your artwork, save as PDF and choose Illustrator default settings and upload it with your order.
