

## Sticker Sheet Requirement

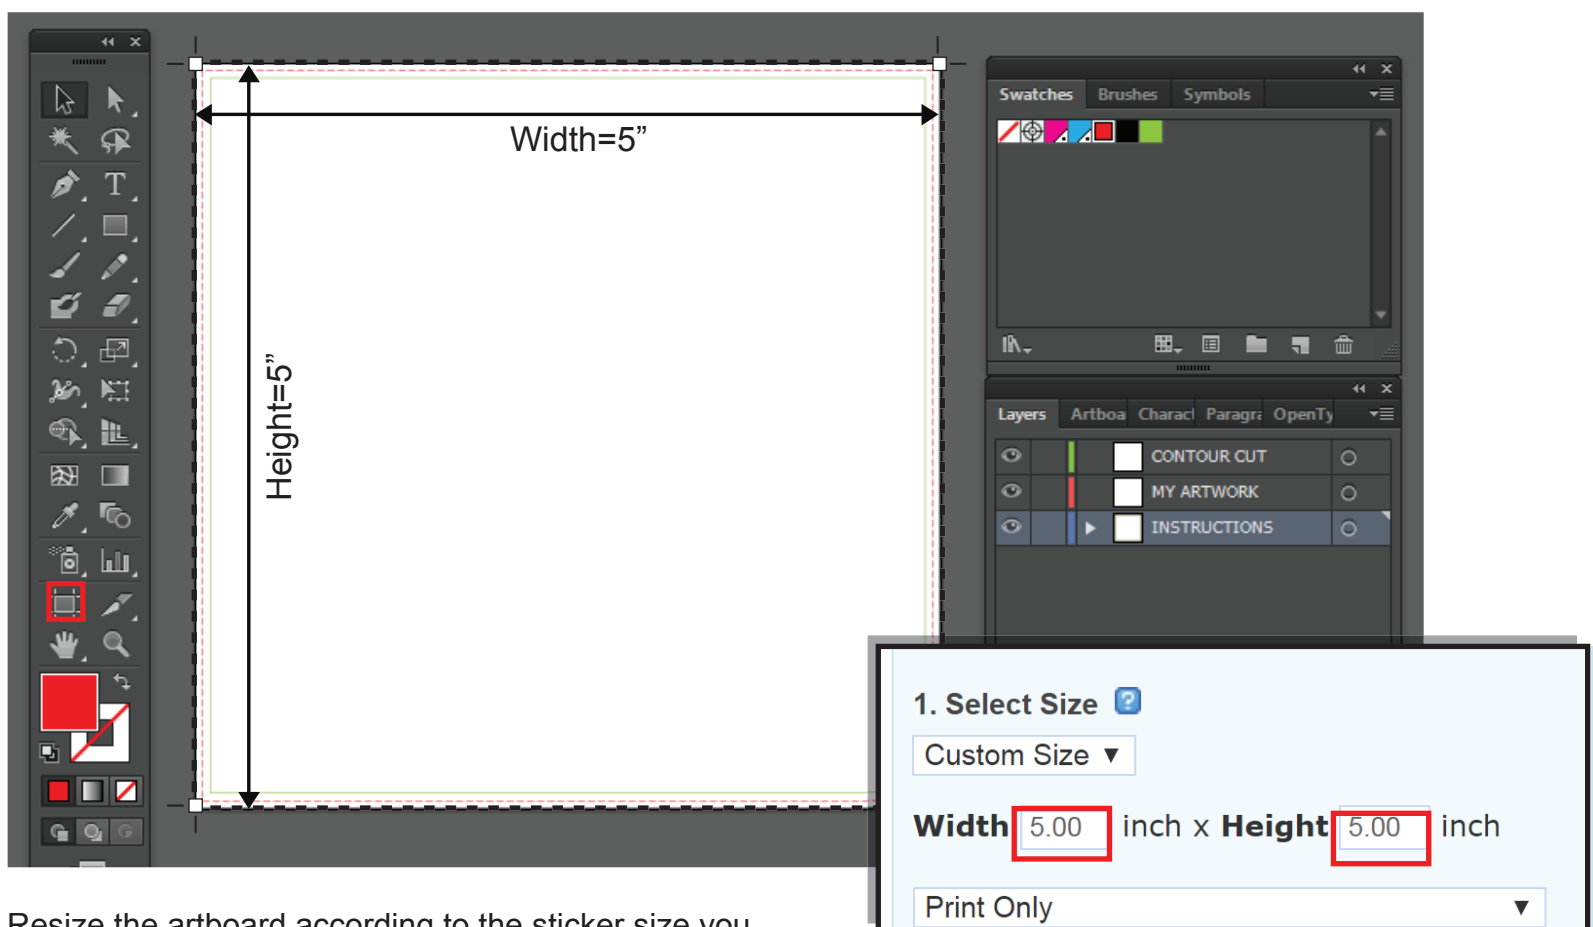

1. Allow at least .25" of space between stickers
2. Stickers cannot be smaller than 1"x1"
3. Indicate contour cut lines (—) using a 1pt. stroke
4. Make sure all the text are outlined.

## STEPS TO SETUP YOUR ARTWORK

1. Download the **sticker-sheet-ai-template** pdf under template and open it in Adobe Illustrator.

DETAILS	TEMPLATE (2)	FAQ	RELATED (6)	BLOG	
Guideline Template					
NO.	THUMBNAIL	DESCRIPTION	SIZE	DOWNLOAD	SEND BY EMAIL
378		Artwork Guide for Die-Cut (any shape) on White or Opaque Material	Any size	pdf	Email
527		Sticker Sheet AI Template	Any size	pdf	Email

2. This PDF has the correct color swatch and layers, so it will be easy to start. There are 3 layers as shown below.

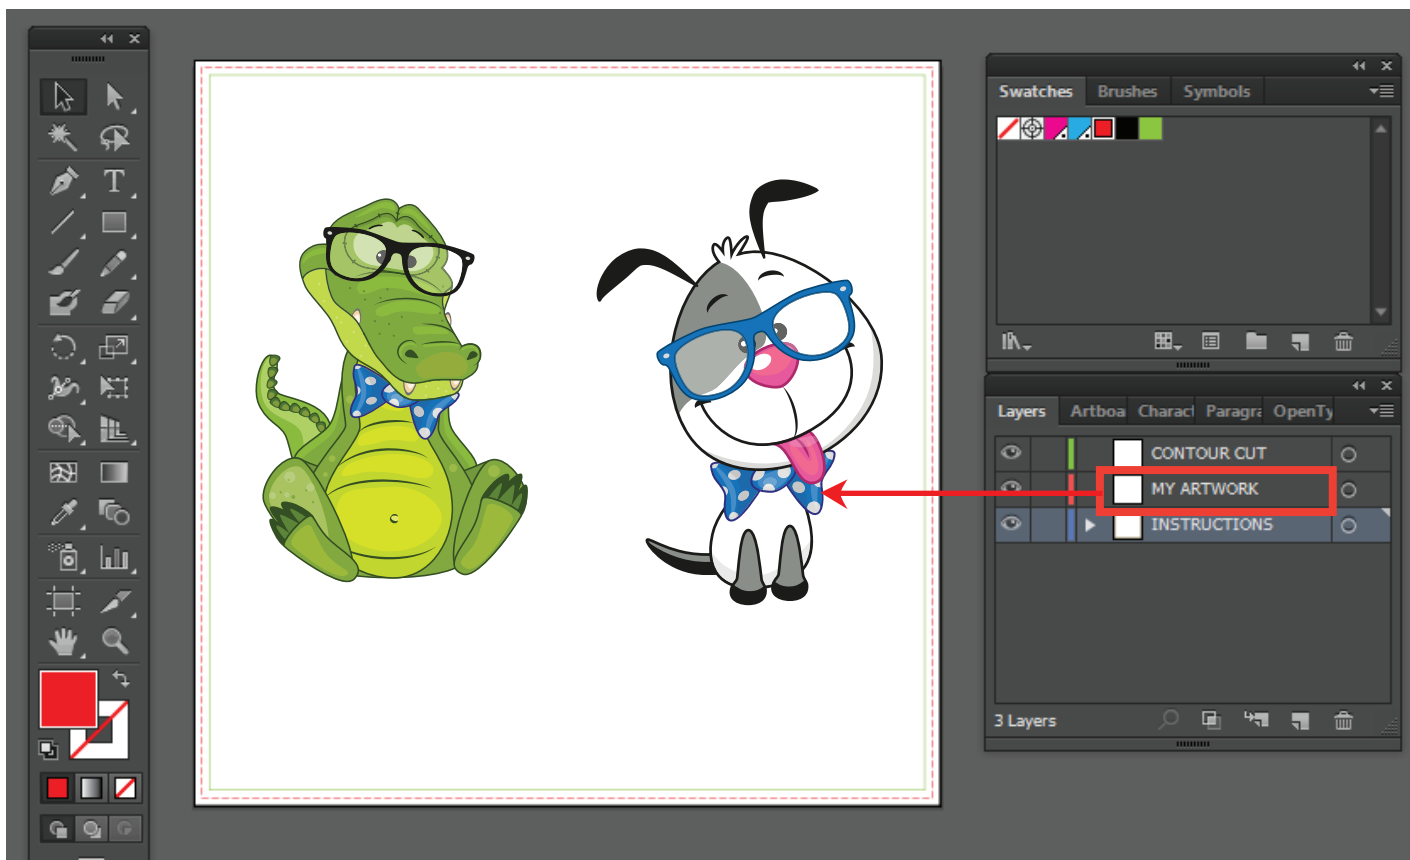

The screenshot shows the Adobe Illustrator interface. The central artboard is a square with dimensions of 5 inches by 5 inches, indicated by arrows and text. The top toolbar is visible on the left. On the right, the Swatches panel shows a color palette, and the Layers panel shows three layers: 'CONTOUR CUT', 'MY ARTWORK', and 'INSTRUCTIONS'. A callout box in the bottom right corner provides instructions for setting the artboard size.

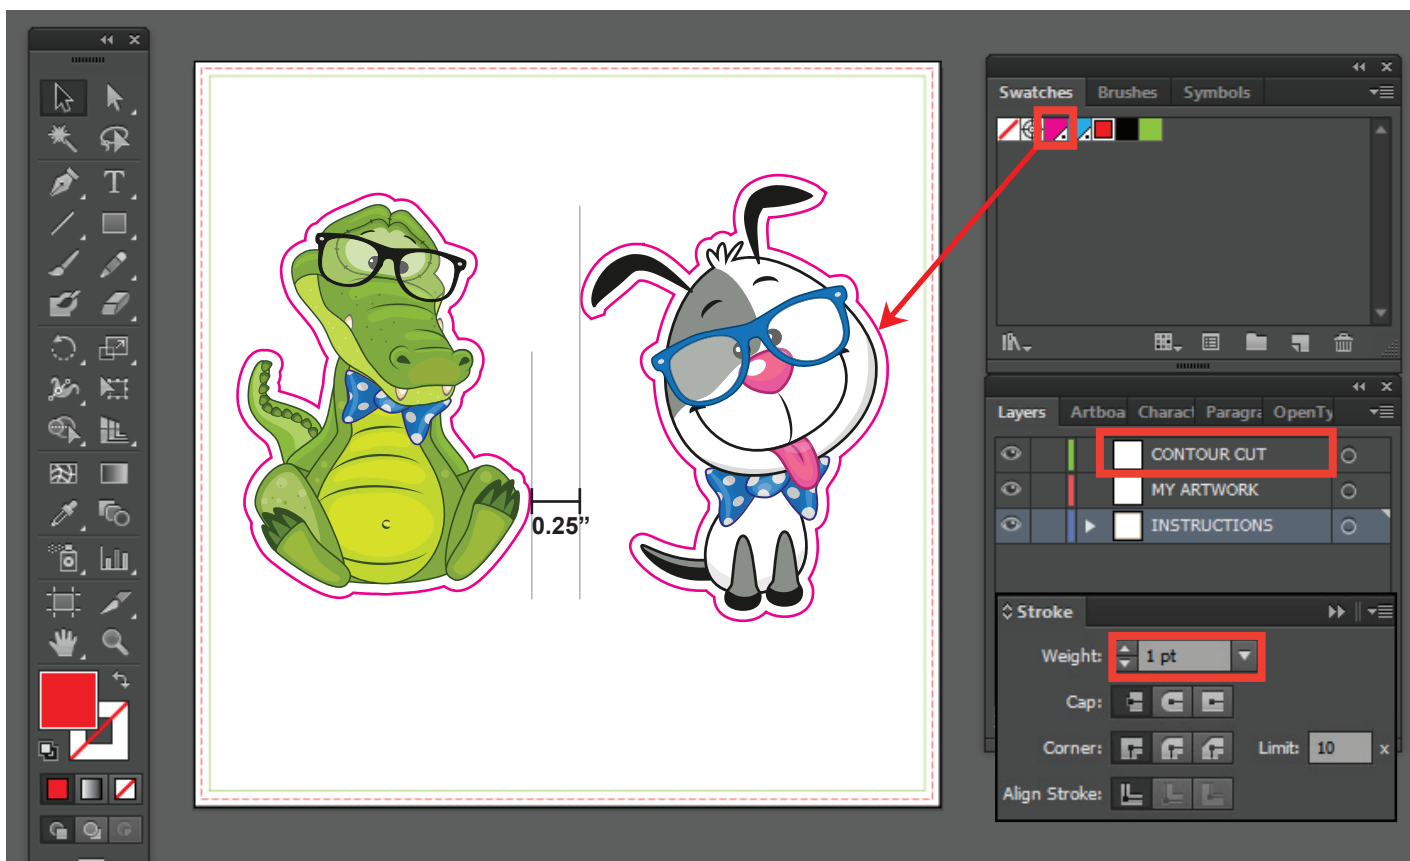

1. Select Size ?  
Custom Size ▾  
Width 5.00 inch x Height 5.00 inch  
Print Only ▾

Resize the artboard according to the sticker size you have ordered

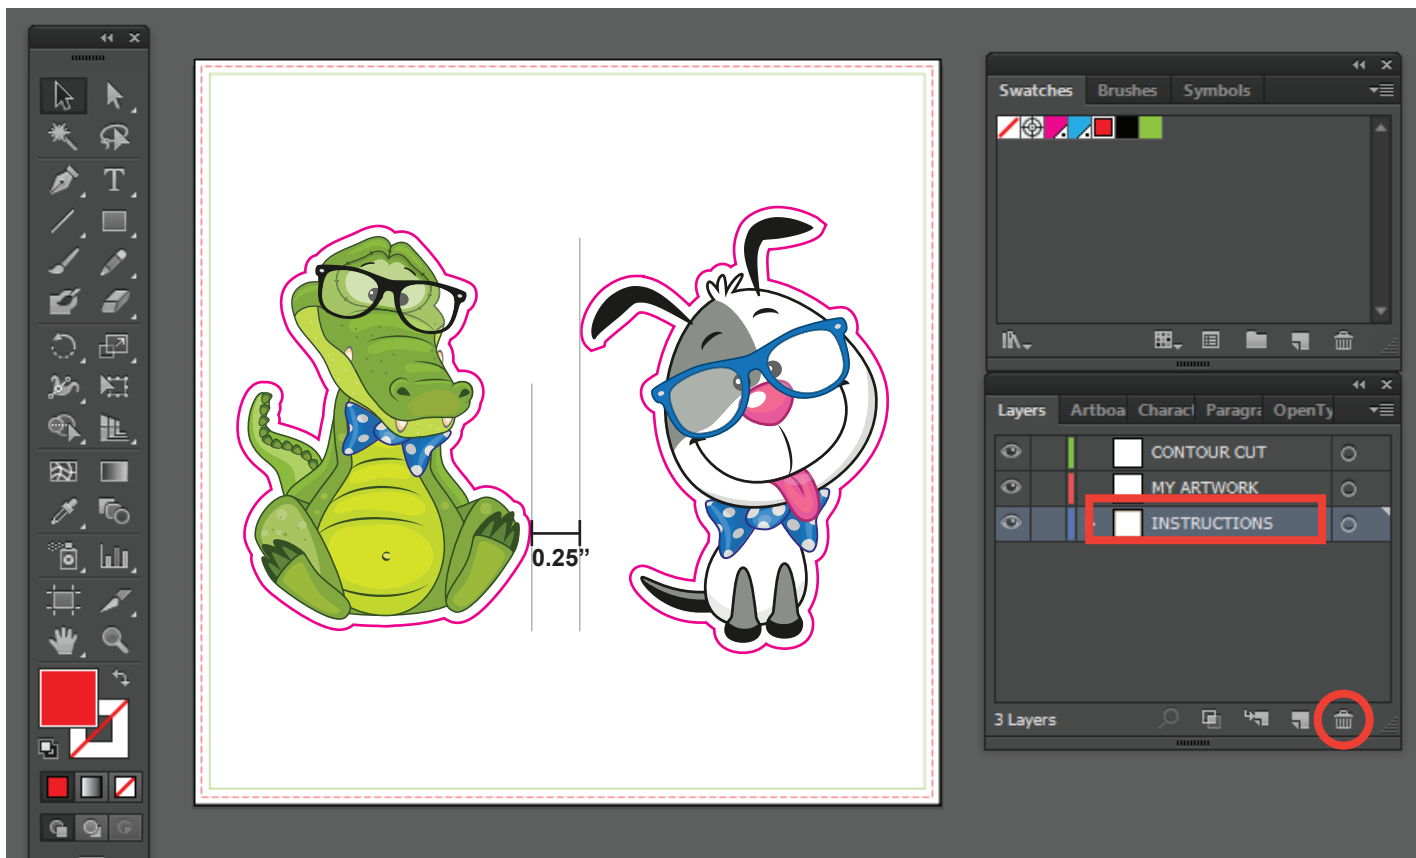

3. From the layer window, select “MY ARTWORK” layer and place the stickers

4. Draw kiss cut lines around the stickers. Set the stroke color to “CutContour” from the swatch provided and thickness to 1pt.

4. Delete this instruction layer.

5. Save as PDF and choose Press Quality settings and upload it with your order
