IMPORTANT NOTES

1. This PDF has all the **layers** which will need to setup your artwork.
2. Resize the artboard according to the label size. This is the box inside which the die-cut sticker will be printed and kiss cut.
3. Select "**Artwork**" layer and create your label artwork.
4. Now create a dieline around the artwork. Make sure to place the dieline in "**Dieline**" layer.
5. **Delete the instruction layer before uploading the artwork.**
6. Save the artwork as PDF.
